2021 - Current

### SOFTWARE ENGINEER

State of the art online card editor.

Support card-building front end application and new product websites. Work with UI/UX to build React components to match Framer designs. Front end technologies include React, Redux, TypeScript, and GraphQL with a Python/Django backend.

[Lendio](#)

2020 - 2021

### SOFTWARE ENGINEER

Online small business loan marketplace.

Worked on public-facing applications. Coordinated closely with UI/UX to build and refine pages and components.

[Vonazon](#)

2020

### WEB DEVELOPER

Full service digital sales and marketing agency.

Built websites for clients using the HubSpot CMS. Created and updated custom templates and modules in HubSpot using the Hubl templating language and Preact, a performant React alternative. Translated design and styling guidelines from the Graphics Design team into attractive and responsive web pages using custom Bootstrap themes.

[US Wheel Corp.](#)

2017 - 2019

### SOFTWARE ENGINEER

Steel wheel assembly and tire distribution.

Wrote code to automate business operations such as order entry, invoicing, reporting, and generating work order bill of materials. Built simple web applications using JavaScript tools, technologies and frameworks such as React, NodeJS, and Express. Helped troubleshoot any IT problems for the office and warehouse.

## Education

[Hack Reactor](#)

2020

### SOFTWARE ENGINEERING IMMERSIVE

An advanced coding bootcamp focused on building autonomous software engineers ready for any job in the tech industry.

Worked on mastering full stack JavaScript and Computer Science fundamentals while exploring new tech using the most refined, up-to-date curriculum. Hosted a front end project on AWS EC2 free tier instances and designed a system to maximize application load. Split the proxy, services, and database to individual EC2 instances and configured a load balancer using NGINX.

[UCI Division of Continuing Education](#)

2018

### WEB DEVELOPMENT BOOTCAMP

A web development program that teaches the key skills for full stack development.

Completed complex projects and received hands-on programming training through experiential learning opportunities.

[Brigham Young University, Utah](#)

2016

### BACHELOR'S DEGREE - BUSINESS MANAGEMENT
