## SKILLS

## EXPERIENCE

- [Vonazon](#) 2020  
**WEB DEVELOPER**  
*Full service digital sales and marketing agency*
  - Built websites for clients using the HubSpot CMS.
  - Translated design and styling guidelines from the Graphics Design team to attractive, responsive web pages.
  - Generated custom Bootstrap themes built from the Sass source files using node-sass.
  - Created and updated custom templates and modules in HubSpot using the Hubl templating language and Preact, a performant React alternative.
- [US Wheel Corp.](#) 2017 - 2019  
**SOFTWARE ENGINEER**  
*Steel wheel assembly and tire distribution*
  - Wrote code to automate business operations such as order entry, invoicing, reporting, and generating work order bill of materials.
  - Helped troubleshoot any IT problems for the office and warehouse.

## EDUCATION

- [Hack Reactor](#) 2020  
**SOFTWARE ENGINEERING IMMERSIVE**  
*An advanced coding bootcamp focused on building autonomous software engineers ready for any job in the tech industry*
  - Worked on mastering full stack JavaScript and Computer Science fundamentals while exploring new tech using the most refined, up-to-date curriculum.
  - Hosted a front end project on AWS EC2 free tier instances and designed a system to maximize application load.
  - Split the proxy, services, and database to individual EC2 instances and configured a load balancer using NGINX.
- [UCI Division of Continuing Education](#) 2018  
**WEB DEVELOPMENT BOOTCAMP**  
*A web development program that teaches the key skills for full stack development*
  - Completed complex projects and received hands-on programming training through experiential learning opportunities.
- [Brigham Young University, Utah](#) 2017  
**BACHELOR'S DEGREE - BUSINESS MANAGEMENT**
